

# TECHNOLOGY ERRORS & OMISSIONS

**Our carriers are  
rated A- (Excellent) IX  
by A.M. Best**

Today most businesses run on technology. If that technology fails, it can substantially impact on a company's finances, especially for companies who provide technology products or services.

Technology errors and omissions insurance is a specialized insurance product created to protect specific professional liability risks and tailored to address the unique exposures presented by technology companies.

Our claims and underwriting professionals have a deep understanding of E&O risk in the technology sector, enabling us to create customizable and flexible solutions for even the most complex risks.

We have a team  
of experts waiting  
to hear from YOU!
