Skyward Specialty provides comprehensive and competitive casualty insurance coverages designed for the crane market, as well as uses dedicated underwriting, claims and risk management staff to provide best in class services. Skyward Specialty Construction writes through our “A” rated insurance carriers using both admitted and surplus lines paper. We partner with an exclusive network of retail agency partners and wholesale brokers, knowledgeable in the crane market covering the entire country.

PROGRAM HIGHLIGHTS

- GL: Rigger’s Liability via CCC Exclusion Endorsement OR “On-Hook” coverage; “Per Project” GL limits with a \$5M Aggregate CAP.
- GL OR AUTO: Mobile cranes covered as per state requirements or client request.
- Excess: True follow form excess; follow form CCC available.
- Dedicated Crane underwriting teams and claims professionals with construction focused risk control services and crane contract support provided through industry experts.
- Unlike the MGU/MGA markets we compete against, Skyward Specialty is a direct carrier market offering full commissions and our underwriting team has the direct authority to resolve your matters quickly. Additionally, we don’t charge extra risk management fees on top of premiums.
- Skyward billing plans available to our policyholders with NO finance charges, saving them significant finance costs.

Skyward Specialty’s Construction Team targets Crane, Rigging, Millwright and Construction Equipment Rental and Dealer Operations of ALL SIZES. We offer all program structures from guaranteed cost to low/high deductible plans along with our Group Captive product with captive consultant partner eMaxx.

COVERAGE AND LIMITS

- Commercial General Liability and Commercial Auto.
- Workers Compensation & Employers Liability (if payroll is “crane operator” driven).
- Excess Liability capacity up to \$5M.
- Property and Inland Marine: Our focus is per location and per item values <\$500K, but we do have the flexibility for higher limits. No coastal wind or high-risk flood and earthquake zone exposures.

TARGET CLASSES

- Crane Rental with/without operator, Rigging and Millwright, Equipment Dealers and Rental operations.
- Incidental operations (up to 33% of total sales) associated with the above classes including Specialized Hauling, Warehousing and other related classes.
- We also target classes that use cranes in their operations such as Steel Erection and Floor/Tilt-Up Panel Erection Contractors.
- Wind Farm, Tower Crane and “for hire” Trucking – exposures are available if incidental but are exception basis only (please review with your UW).
